## PROJECTS

### Amazon clone

Key Skills: HTML CSS

Project Link: [https://github.com/saranssh/AMAZON\\_CLONE](https://github.com/saranssh/AMAZON_CLONE)

Developed an Amazon clone as my first basic practice project using HTML and CSS. This project enhanced my understanding of web development fundamentals, improved my front-end skills, and taught me effective techniques for structuring and styling web pages.

### Book Recommendation

Key Skills: HTML CSS

Project Link: <https://github.com/saranssh/Book-Recommendation>

Developed a Book Recommendations website to suggest books based on user preferences. This project involved designing and implementing a user-friendly interface with HTML and CSS, focusing on responsiveness and aesthetics. Through this project, I gained practical experience in front-end development and enhanced my skills in creating structured, well-styled web pages

### Portfolio

Key Skills: HTML CSS

Project Link: <https://github.com/saranssh/PORTFOLIO>

Created a personal portfolio website to showcase my projects, skills, and achievements. This project involved designing and developing a visually appealing and responsive web page using HTML and CSS. The portfolio effectively highlights my work and provides a professional online presence. Through this project, I further honed my front-end development skills and learned how to present content in an organized and engaging manner.

### Flight Ticket Booking Application

Key Skills: Python Flask HTML CSS SQLite

Project Link: <https://github.com/saranssh/Flight-Ticket-Booking>

Developed a web-based application using Python's Flask framework for efficient booking and management of flight tickets. Implemented user-friendly interfaces with HTML and CSS, ensuring seamless navigation and a pleasant user experience. Integrated SQLite for robust data storage and retrieval, enhancing scalability and performance. Hosted the application on PythonAnywhere for easy accessibility and maintenance.
